SUMMARY

A highly motivated and results-driven software engineer with a strong foundation in Computer Science and Engineering.

Proficient in **C++** and **web development technologies.** Experienced in front-end development, project management, and **problem-solving**. Possesses excellent communication, teamwork, and adaptability skills, eager to contribute to innovative projects in a dynamic environment.

EDUCATION

Arya Institute of Engineering and Technology, Jaipur   2022-present
B.Tech in Computer Science and Engineering — CGPA: 8.5   *Jaipur, Rajasthan*

GDM public school,dokhra,muzzafarpur   2019-2021
----Intermediate — Percentage: 70%   *Muzzafarpur,Bihar,*

Dav public school,runni-saipur,sitamarhi   2017-2019
Secondary School — Percentage-86%   *Sitamarhi, Bihar*

SKILLS

Programming Languages: C++ (advance), C (Intermediate), JavaScript (Intermediate), SQL (Intermediate)

Proficient in: : C++ (advance),

Web Technologies: HTML5, CSS3, java script,React.js

Tools: VS Code, Dev C++

Core Concepts: Object-Oriented Programming (OOPs), Data Structures and Algorithms (DSA), operating system(OS),Database management system(DBMS)

PROJECTS

Portfolio Website — HTML, CSS, JavaScript   2024
  – Designed and developed a responsive personal portfolio website, enhancing online visibility and showcasing technical skills.
  – Utilized modern web development techniques to ensure cross-browser compatibility and mobile responsiveness.

Weather Forcast App – python

  -Fetch and display current weather conditions such as temperature, humidity, wind speed, and weather descriptions.

-Provide a detailed forecast for the upcoming week, including daily high and low temperatures, weather conditions, and chance of precipitation.

-Allow users to search for weather updates based on city names, zip codes, or geographical coordinates.

E-commerce website(Fruitables) – React js

- Easy navigation, intuitive design, and responsive layout for a smooth shopping experience on both desktop and mobile devices.

- Advanced search functionality with filters for categories, price range, brand, ratings, etc., to help users find products quickly.

- Allow customers to leave reviews and ratings for products to build trust and help other users make informed decisions.

EXPERIENCE

Learn and built Aug 2024

Front-End Developer Intern *Jaipur, Rajasthan*
- Developed dynamic and responsive frontend applications using React.js, improving user engagement by 25%.
- Collaborated with backend developers to integrate RESTful APIs, ensuring seamless data flow and enhancing application performance.

CERTIFICATIONS

C Programming – NPTL (2022)

C++ programming-NPTL(2023)

Dbms-NPTL(2023)

Dsa(c++)-NPTL(2024)

Operating system-NPTL(2024)

ADDITIONAL ACTIVITIES

Completed Web Development Training on LEARN AND BUILD (2023)

Participated in College Hackathon, contributing to a team project (2024)
